NEW DEVELOPMENT

Our Purpose

Bridging Global Brands with World-Class Manufacturing

Our purpose is clear: to connect global apparel buyers with responsible, skilled, and technically capable manufacturing partners in Bangladesh.

Bangladesh has established itself as one of the world's leading apparel manufacturing destinations, known for its experienced workforce, modern production facilities, competitive pricing, and strong commitment to compliance and sustainability. However, identifying the right factory partner and managing production effectively requires local expertise and industry knowledge.

Own Sourcing International bridges this gap by providing buyers with direct access to carefully vetted manufacturers that meet international standards for quality, compliance, and production efficiency.

We exist to make sourcing simpler, more transparent, and more dependable. Through our expertise and local presence, we help customers reduce risks, improve efficiency, and achieve their business objectives with confidence.

Our mission is not simply to source products. Our mission is to create value, build trust, and establish long-term partnerships that contribute to the success of every client we serve.
